Important News Release

To prevent water and/or sewer freeze up due to extreme cold temperatures and deep frost in Kincheloe, Kinross Township Water and Sewer Department is **strongly recommending** all customers allow one (1) stream of cold water (about the size of a pencil) to run in their home or place of business until further notice. Your water bill will be estimated based on previous month's usage, not the actual usage, while you are in a "let run" situation. Failure to run your water as recommended could result in split or broken lines that would be your responsibility to repair or replace. Please advise your friends and neighbors of this important notice. If you have any questions or concerns, contact the Water and Sewer Department at 495-5134 or 495-5738.
